

Professional Consulting support for
SOCIAL PROFIT

FuseSocial is pleased to continue to support the social profit sector through our Shared Services Program for our third consecutive year. This innovative program provides the non-profit community access to professional Human Resources, Marketing & Communications, and Evaluation & Social Research Services. We offer four different levels of support, allowing organizations the flexibility to choose the level of service that best fits their individual needs.

---	---	--	---

Additional Program Information: Packages are based on one year of services meaning all hours must be utilized within one year of Client's contract start date. Services and fees cannot be carried over past the contract date. Clients will not be permitted to move hours between membership years.

Fees can be paid upfront or with an initial payment of 50% of the total fee upon signing agreement with the remaining 50% due within 90 days.

Human Resources and Marketing & Communications support can be divided into any combination of hours within your purchased plan and at the Client's discretion on an as needed basis. Evaluation hours are non-negotiable. You cannot build your own plan. There may also be an opportunity to purchase additional Shared Service hours (based on availability) over and above your purchased membership package.
